

SQUARE PILE BREAKER

方形破桩机

适用范围

scope of application

* 适用于高铁桥梁，工民建筑等桩基工程

* Applicable to pile foundation projects such as high-speed rail bridges and industrial buildings

破桩机参数 PARAMETER

型号 Model	单位 Unit	BY-PB350S	BY-PB500S	BY-PB600S
适用破桩直径 Cut Pile Dia	mm	250-300	400-550	550-650
整机重量 Total Weight	T	0.7	1.24	1.4
单根油缸最大顶力 Max.Cylinder required	20L/min	液压油缸最大行程 Max.Cylinder Trip		300mm
单次破桩高度 Max. Hoist Capacity	≤ 300mm	液压油缸最大压力 Max.Cylinder Pressure		30MPa
杆杆最大加压力 Max.Thrust	300KN	配套工程机械吨位 Machinery Tonnage		BYP350S: ≥15t BYP500S: ≥20t

MAIN FEATURE 主要特点

- 01 一般圆形截桩机适用于桩径在600mm-2500mm;方形截桩机适用于桩边长350-650mm。
Normally hydraulic round pile breaker can break pile diameter from 600-2500mm and hydraulic square pile breaker is suitable for square pile from 350-650mm.
- 02 可以满足各类大型基础施工的要求。
Our machine can meet the requirements of all kinds of large-scale infrastructure construction.
